MARSHALL REPUBLICANS

Meet in Convention and Form an Auxiliary to the

STATE REPUBLICAN LEAGUE.

Some Hinging Resolutions Adopted—Hon. H. W. Campbell Addresses the Convention on the Tariff—An Enjoyable Affair.

The convention of the Republican clubs of Marshall county for the purpose of organizing a county auxiliary to the State Republican League, met at the Court House at Moundsville yesterday. The meeting was called to order by Mayor W. J. Purdy, who named Hon. W. S. Simonon for temporary chairman. The convention then proceeded to a permanent organization, and elected T. J. Parsons permanent Chairman, Josiah Sinclair, First Vice-President, C. W. Kimmings, Second Vice-President, and William Mason Third Vice-President. William Enix was elected Secretary.

The following resolutions were adopted: First—That the Republicans of Marshall county, in convention assembled, do hereby endorse the platform of the Democratic party to inaugurate a free trade policy, and that we pledge our continued support to the same. Second—That the protective system of the Republican party, which has made our people the most prosperous in the Union, be maintained. Third—That we condemn the Democratic administration in West Virginia for its mismanagement of the public lands of the State and total disregard of the interests of the people in the disposal of said lands. Fourth—That we favor the abolition of all internal revenue laws, except those which are necessary for the support of the government. Fifth—That we favor the nomination of James G. Blaine and General Sherman for President and Vice-President of the United States. Sixth—That we favor the nomination of John A. Logan for Governor of West Virginia. Seventh—That we favor the nomination of John A. Logan for Governor of West Virginia. Eighth—That we favor the nomination of John A. Logan for Governor of West Virginia. Ninth—That we favor the nomination of John A. Logan for Governor of West Virginia. Tenth—That we favor the nomination of John A. Logan for Governor of West Virginia.

McConkey's Cornet band and the Lincoln band furnished the music for the occasion, and throughout the meeting much enthusiasm and intelligent interest was manifested. Hon. A. W. Campbell, of Wheeling, arrived on the noon train and addressed the convention at its afternoon session. He was introduced by Capt. Hanson Criswell in a neat speech. Mr. Criswell's reference to Mr. Campbell's connection with the INTELLIGENCER was received by the convention with a hearty applause.

Mr. Campbell's address was full of that strong logic and convincing reasoning for which he is noted. From the beginning to the end his remarks were listened to with wrapt attention. A number of his remarks were directed to the present, and his allusion to the wool question was particularly interesting to them. He explained how wool is produced in Australia and the Cape of Good Hope, and why it is so much more valuable than the product of our own sheep. He also explained the wool question, and his allusion to the wool question was particularly interesting to them. He explained how wool is produced in Australia and the Cape of Good Hope, and why it is so much more valuable than the product of our own sheep.

A CHARMING AFFAIR.

The Lyceum and Lecture at the Fourth

Street Church Last Night.

There was another large audience at the Fourth Street M. E. Church last evening, entirely filling the room. The whole entertainment was successful. The lecture was upon Alexander's Conquests, and was a picture by word and pencil of one of the most wonderful careers of history. A most interesting feature of the lecture was the fact that in treating the achievements of Alexander, the speaker necessarily passed in review the whole oriental world as known to the ancients, and called out many of those salient points of interest so delightful to readers of history. The programme which followed was charming. Mrs. Shellhase and her sister, Miss Katherine Dean, played a piano duet. Miss Spears read a very good paper upon "Lord Macaulay," and it is to be congratulated upon the pleasant impression made upon the people by this valuable paper. Robert Darrah read a "Lay of Ancient Rome" with the eloquency skill which makes his recitations so pleasing. Nothing could exceed the vocal solo of Mrs. Frank Stanton in sweetness and effect. The audience listened to the whole programme with great interest. On Thursday night next the subject of the lecture will be "Rome in the Augustan Age," and the literary subject will be "William Cullen Bryant."

IMPORTANT CHANGES

To Be Made To-morrow in the Baltimore

& Ohio's Schedule.

To-morrow morning at 1 o'clock the Baltimore & Ohio's schedule for the summer season goes into effect. A number of important changes will be made in the running of both through and local trains, but the most important for Wheeling will be the change which will put her on the through route between Chicago and New York. Under the new arrangement, train No. 3, which has been leaving Philadelphia at 5 o'clock p. m. and Baltimore at 8:30 o'clock p. m., arriving here over the main line at 10:50 o'clock the next morning, will now leave Philadelphia at 5 o'clock in the morning, coming via Cumberland and Pittsburgh, and passing on West from here; train No. 4, leaving Chicago at present at 10:20 o'clock p. m. and arriving here at 6:45 o'clock the next morning, it is to be changed to the following morning, and at Philadelphia at noon, will, instead of going over the main line to Cumberland, go via Wheeling and Pittsburgh to that point, passing through here at 6:30 in the evening. Those who have to go to New York in the evening, instead of going to New York and taking a sleeper there, will get their sleeper at the depot here and go via Pittsburgh; and returning, the sleepers will run right into the depot here. The main line to take the place of these express trains.

Death of a Prominent Lady.

Mrs. Sarah A. Taylor, of Moundsville,

was buried yesterday from the home of

her son-in-law, Mr. H. F. Steele, in

the cemetery at Belmont. Mrs. Taylor

was born in Bullet county, Kentucky,

in 1818, and her father was the

first settled Methodist minister at

Louisville. In 1883 she was married to

Mr. William Steele, after which they

emigrated to Lexington, Ky., for a

short time. She was the first white

woman that crossed the Des Moines river,

her husband having been engaged in

trading with the Indians at that time,

and there was no other white woman

in that country. After Mr. Steele's

death, she lived with her daughter,

Mary, who was married to Mr. Frank

Taylor, in 1883, and her father was the

first settled Methodist minister at

Louisville. In 1883 she was married to

GLASS STRIKE SETTLED

And this Time it Seems to be Settled for Sure.

A CONFERENCE IN NEW YORK

Ends the Trouble—Manufacturing News of a General and Interesting Nature—What the Industries of Wheeling are Doing.

The glass strike, which has been in progress for over four months, has been settled. A dispatch received last night states that a conference of the leaders of the American flint glass workers and the manufacturers, was held in New York yesterday, and that late in the afternoon a settlement was reached.

This result is not unexpected, for some time past it has been evident that the manufacturers were becoming very anxious for a settlement. They were about ready to waive points that, at the outset of the trouble, they were determined not to give in on. The new factories that have been started up at Fostoria, Findlay and other places have compelled them to seek a settlement or else break away from their association in order to avoid the trade war.

There is no doubt about the settlement having been effected. All the factories on the South side, in Pittsburgh, got their fires in last night, and by next Monday it is probable that nearly every factory will be running. The only factories located within the settlement area are the Elson, at Martin's Ferry, and the Bellaire, at Bellaire; it is presumed that they will be started up at once.

It is stated that the factories are to be started at the men's terms. The only trouble said to be existing between the two organizations since the conference committee held their long and protracted sessions at Pittsburgh, extending over two weeks, has been the apprentice clause, and this the manufacturers have waived. Since the settlement, the manufacturers are to bring about a settlement after their conference at Pittsburgh, where the manufacturers' association expressed on
